

State-of-the-Art VoIP Phone Hardware for Every Enterprise

82%

of businesses report *cost savings* when they move to the cloud.

MICROSOFT

LiveVox's advanced, cloud-based VoIP platform is compatible with most models of industry-leading hardware providers.

We know how crucial it is to deploy the right equipment to fit the unique needs of your business. That's why we give you the flexibility to use your own devices or order from us—it's your choice. Either way, we help to make sure you're equipped to deliver the best possible experience for your customers every time.

1

Top-of-the-Line Equipment

We provide high-quality desk, conference, and cordless phones, as well as headsets, analog adapters, and even a softphone you can run on your computer.

2

Bring Your Own Hardware

Our platform integrates with most types of phone devices and accessories. Or we can help you facilitate a seamless hardware refresh that's also budget-friendly.

3

Simple to Deploy

Let us take care of configuring the cloud-based device registration so you don't have to, ensuring that you have an easier, plug-and-play experience.

Maximize Efficiency with LiveVox's Full Suite of Device Options
